

EMPLOYMENT OPPORTUNITY

Principal Transportation Planner

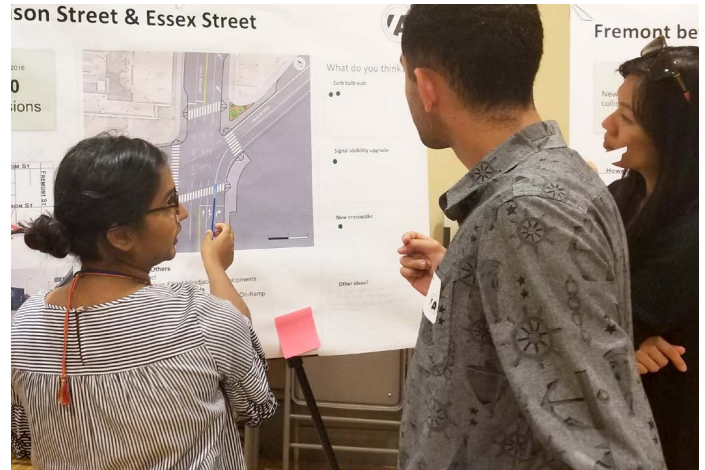

This recruitment will remain open until filled. However, first consideration will be given to individuals who respond by **August 9, 2021**.

Summary

The Transportation Planner Series in the Planning Division includes three levels of professional Transportation Planners who manage planning and corridor studies and other planning projects, facilitate community outreach efforts, and represent the Transportation Authority on technical and policy advisory groups. The Principal Transportation Planner works on complex assignments, requiring substantial judgment and initiative essential in developing recommendations and resolving problems.

Essential Duties and Responsibilities

- Collects, analyzes and interprets transportation data, designs surveys, develops long-range transportation planning priorities, summarizes data and prepares reports, and reviews transportation model inputs and outputs.
- Performs project management for complex planning and corridor studies. Duties include developing proposals; developing and tracking project budget, scope and performance measures; recommending and procuring consultant services; managing consultant and Transportation Authority staff teams; reviewing and reporting on study progress and deliverables; applying for and managing grants; coordinating with agency partners; and developing and implementing public outreach plans.
- Provides assistance to Deputy Director and other Divisions, including supporting development of the division work plan and providing input, policy guidance, and review of Transportation Authority initiatives and studies, including the Countywide Transportation Plan, Congestion Management Program, Prop K 5-Year Prioritization Programs and Strategic Plan.
- Prepares board memoranda and official Transportation Authority correspondence; presents to the Transportation Authority Board and may represent the Transportation Authority before state, federal and regional agencies, boards, and commissions.
- Supervises one or more Transportation Planners

Key Details

Exemption Status

Full-Time, Exempt

Training and Experience

Completion of a graduate degree in an appropriate discipline such as transportation planning, public policy or civil engineering; and five (5) years of progressively responsible experience in transportation planning, programming or funding. Applicants may substitute completion of a graduate degree with two (2) years of additional qualifying experience.

Compensation Range

\$107,645 - \$148,550 (depending on experience), plus excellent benefits.
